The majority of players on ROBLOX do not have any way to benefit from the game anymore because they're not willing to pay real money for fake money (robux), so they get bored and quit. They know there is no value in this game so why should they waste their time on it?

The site has been called "worthless" by users such as Brianna Wu, an independent games programmer and activist. She was also specifically referencing the site's lack of any kind of real economy.[10] There have been multiple instances where money and donations were sent to ROBLOX asking for some kind of update on a game which never came to life. She has asked for the company to be more transparent in regards to this situation and stated that she will not give them any more money until they actually deliver something.

In December 2016, Roblox changed its website design again.[64] This can be viewed here: Roblox Main Page. An official subreddit was created in January 2012 by user pb\_bacon.[65] It has since grown to have over 3,000 subscribers (as of May 2018) and 338 pages (as of May 2018).

On September 2nd 2018, ROBLOX announced that they were banning a group of players who hacked the game "Roblox Crates". This was done because hackers added fake scripts into some games. Roblox had removed all the scripts from those games which resulted in the ROBLOX network crashing.[84]

Once you have downloaded the app, then you can open it and see if there are any ads that show up. If there are a lot of ads, then I would suggest you to uninstall it and to download another app for your device. However, most of the apps that are available on Google Play Store don't have any ads so it shouldn't be a problem at all.
